**PRINCIPAL DUTIES AND RESPONSIBILITIES:** Identifies user's tools, parts, equipment, and requirements and requisitions stock as needed. Watches and reports items that are in short supply because of breakage or because they are frequently out for repair. Recommends possible substitute or interchangeable items. Sets up and maintains storage locations. Determines methods of storage, identification, and stock location, considering such factors as temperature, humidity, height and weight limits, turnover, floor loading capacities, space available, and convenience of handling items. Compiles records concerned with quantity, cost, and type of material received, stored, and issued in a department, establishment, account, or on a particular job. Prepares periodic inventory and determines the basis for over, short, or misplaced items by checking such references as out-for-repair, issue, and turn-in records maintained in the tools and parts room. Compiles reports of use of stock handling equipment, adjustments of inventory counts and stock records, spoilage of or damage to stock, location changes, and refusal of shipments. Ensures that tools and equipment are maintained in good condition by performing visual and operating checks, taking measurements with such devices as calipers, and receiving reports from users on the nature and extent of damage to tools and equipment. May make minor repairs to tools and equipment, determine when damaged and inoperative items are too costly to repair, and report damaged or worn-out equipment to superiors. Determines stock replenishment levels for centrally controlled supplies and other material within funding limitations. Assures that supplies and monies are not wasted through excess accumulation, and that items are on hand in sufficient quantities and at the time required. In addition to established guides and formulas, determines quantities required and timely stock replenishment. Receives a wide variety of supplies and specialized items requiring special handling. Ensures that received items are properly stored in assigned locations. Reviews requisitions for completeness and compliance with regulations, and revises quantities ordered based on number on hand. Recommends substitution when supply items are not available. Searches for identifying or management data on items of supply. Compares data listed on documents with reference sources such as federal catalogs, stock lists, or other publications. Receives requests desiring additional identification data, verification, or comparison of data on hand with reference sources. Searches for stock number, prices, descriptions, sources of supply, or other management data. When unknown, traces part number or type number and manufacturer of the item of equipment. Edits supply transactions, or provides customer service for urgent critical shortage items and other items requiring special handling when established procedures are not applicable. Codes and classifies requisitions, shipping orders, and other documents, and extracts requests to other sources of supply or refers them to an inventory control point when stock is unavailable or cannot be shipped. May assist a journey level Automotive Mechanic and/or a journey level Heavy Mobile Equipment Mechanic by performing the simpler and more routine helper type duties. May engage in joint operations with a journey level employee as instructed by assisting in the accomplishment of his or her duties by getting tools and supplies, carrying materials, and lifting and holding materials in place during operations. As directed by the journey level employee, uses hand and powered tools of the trade to assist in the disassembly, assembly, and installation of simple component parts and units. Applies knowledge gained from previous work assignments. Receives detailed instructions from the journey level employee with each new assignment. Serves to assist the journey level employee as a helper in all phases of the journey level Automotive Mechanic and/or journey level Heavy Mobile Equipment Mechanic duties. All work is reviewed by the journey level employee while in progress and when finished. Cleans tools, parts, and equipment and keeps work areas clean and orderly. (Note: The journey level of the mechanic being assisted may be at the WG-08, WG-09, WG-10, or WG-11, depending on the level of organizational work authorized. Performs other duties as assigned.
